INDEX TO VOLUME V

1923

Section A: Index to authors. *Section B:* Index to subjects

SECTION A. INDEX TO AUTHORS

BARKER, PAUL A. Preventive dentistry; period of deciduous dentition during transition to permanent dentition, xcix, cxvi

BARRETT, THOMAS J. Notes on an ethical question (fee-splitting) in dental science, clix

BATES, GEORGE A. Discussion of disputed points and unsolved problems in the normal and pathological histology of enamel, 114

BRICKER, FREDERICK A. Education as a factor in the rising tide of preventive dentistry, cxxxix, clvi

CHAYES, HERMAN E. S. Discussion: radiography in early dental disease, xxvi; endocrines and preventive dentistry, lx

COOLIDGE, EDGAR D. Root-canal treatment, clxvii

DAVIS, D. J. Studies of fusiform bacilli and spirochaetes. VIII. Their occurrence in alveolar abscesses, 1

GETZ, F. R. Discussion of conservatism in partial prosthetic restorations, xcii

GIES, WILLIAM J. Reviews of Gregory's book: origin and evolution of human dentition, 275

——. This index, cxciii

GILLETT, HENRY W. Conservatism in partial prosthetic restorations, lxix, xcvii

GIUFFRIDA-RUGGERI, V. Review of Gregory's book: origin and evolution of human dentition, 275

GREGORY, WILLIAM K. Notes on the type of *Hesperopithecus haroldcookii* Osborn, 9

GUTMAN, JACOB. Discussion of disputed points and unsolved problems in the normal and pathological histology of enamel, 112.

——. The endocrines and preventive dentistry, xxxix, lxiv

HELLMAN, MILO. Notes on the type of *Hesperopithecus haroldcookii* Osborn, 9

——. Editor: Proceedings of the First District Dental Society of the State of New York, iv, lxviii

HESS, ALFRED F. Discussion of endocrines and preventive dentistry, lix

HIRSCHFELD, ISADOR. A study of skulls in the American Museum of Natural History, in relation to periodontal disease, 241

HOPEWELL-SMITH, ARTHUR. Discussion of disputed points and unsolved problems in the normal and pathological histology of enamel, 108

JAQUETTE, WILLIAM A. Discussion of education as a factor in the rising tide of preventive dentistry, cxlviii

KAUFFER, H. J. Discussion of endocrines and preventive dentistry, lxiii

KELSEY, H. E. Discussion of preventive orthodontia, cxxxiii

KEYES, E. L. Discussion of an ethical question (fee-splitting) in dental science, clxv

LEAK, WILLIAM H. Discussion of preventive dentistry: period of deciduous dentition during transition to permanent dentition, cxii

LEIGH, R. W. Histopathology of dental caries, and its periapical sequelae, 197

McKAY, FREDERICK S. Discussion of education as a factor in the rising tide of preventive dentistry, cl

MERRITT, ARTHUR H. Chairman's introduction of J. Leon Williams, 107

——. Discussion of education as a factor in the rising tide of preventive dentistry, clv

MOOREHEAD, F. B. Studies of fusiform bacilli and spirochaetes. VIII. Their occurrence in alveolar abscesses, 1

POLLIA, JOSEPH A. Radiography in early dental disease, v, xxviii

PRICE, RICHARD R. Extension courses in dentistry, 267

RHEIN, M. L. Discussion of root-canal treatment, clxxvii

ROGERS, JOHN. Discussion of endocrines and preventive dentistry, lvii

RUBSAM, C. W. Discussion: conservatism in partial prosthetic restorations, lxxxv; root-canal treatment, clxxxiii

STILLMAN, PAUL R. Discussion of radiography in early dental disease, xxiv

TEILHARD, P. Review of Gregory's book: origin and evolution of human dentition, 275

VAN WOERT, F. T. Discussion of conservatism in partial prosthetic restorations, xc

WADDELL, R. W. Editor: Proceedings of the New York Academy of Dentistry, lxviii

WAUGH, L. M. Discussion: endocrines and preventive dentistry, lxiii; preventive dentistry—period of deciduous dentition during transition to permanent dentition, cxvi

WILLIAMS, J. LEON. Disputed points and unsolved problems in the normal and pathological histology of enamel, 27

——. Mottled enamel and other studies of normal and pathological conditions of this tissue, 117; addendum, 189

WITHERBEE, W. D. X-ray treatment of tonsillitis and chronic pharyngitis, clxxxvii

YOUNG, J. LOWE. Preventive orthodontia, cxix, cxxxvi

SECTION B. INDEX TO SUBJECTS

ABSCESSES: alveolar; bacteriology, 1

Abstracts: papers in the volume; discontinued, (3)

Alveolar: abscesses; bacteriology, 1

——: deficiency; and root exposure, 241

American Academy of Periodontology; scientific proceedings, ii (sectional contents)

American Museum of Natural History; study of skulls in relation to periodontal disease, 241

Andrews, Robert Robbin; in memoriam, (4)

Ante-natal prophylaxis; dental, xlv

Apical infection. See infection

BACILLI: fusiform; alveolar abscesses, 1
Bacteria; alveolar abscesses, 1
Bacterial plaque; relation to caries, 27
Book reviews, 275
Bridgework. See prosthetic restorations

CALCIUM metabolism; and endocrines, xlviii
Canals; interdental, 241
Caries, dental; origin, 27, 117
——; histopathology, and periapical sequelae, 197
Case histories; value in root-canal treatment, clxvii
Chemotherapy; dental caries, 197
Cocci; alveolar abscesses, 5
Conservatism; in partial prosthetic restorations, lxix
Constitution; and preventive dentistry, xl, xliii

DECIDUOUS dentition; preventive dentistry, xcix
Degenerative changes: in enamel; following dietary deficiency of vitamins, 27
Dental and stomatological societies; scientific proceedings, ii (sectional contents)
Dental caries. See caries.
Dental education. See education
Dental prophylaxis. See prophylaxis
Dental research: Journal Endowment Fund; report, (3)
Dentifrices; uses and abuses, 197
Dentition; and diet, 117
——; origin and evolution, 275
——; preventive dentistry, xcix
Diagnosis; pulpal and periapical conditions, clxvii
Diet; and dentition, 117
Discussion: conservatism in partial prosthetic restorations, lxxxv
——: disputed points and unsolved problems in the normal and pathological histology of enamel, 107
——: education as a factor in the rising tide of preventive dentistry, cxlviii
Discussion: endocrines and preventive dentistry, lvii
——: ethical question (fee-splitting) in dental science, clxv
——: preventive dentistry—period of deciduous dentition during transition to permanent dentition, cxii
——: preventive orthodontia, cxxxiii
——: radiography in early dental disease, xxiv
——: root-canal treatment, clxxvii
Disease, dental: early; radiography, v
——: periodontal; evidenced in skulls, 241
District of Columbia Dental Society; scientific proceedings, 197

EDUCATION: dental; a factor in the rising tide of preventive dentistry, cxxxix
——: ——; extension courses, 267
Enamel: mottled; nature, 117
——: normal and abnormal; problems in its histology, 27, 117
——: organ; nature, 27
——: protein; recent discovery, 117
——: rods; configuration, 27
——: ——; nature, 117
——: ——; sheath, 117
——: unerupted but fully formed teeth; nature, 117
Endocrines; and preventive dentistry, xxxix
Endowment Fund: Journal of Dental Research; report, (3)
Ethics; fee-splitting, clix
Evolution; human dentition, 275
Extension courses; in dentistry, 267

FEE-SPLITTING; an ethical question, clix
Filling; in incipient caries, 197
First District Dental Society of the State of New York; scientific proceedings, ii (sectional contents)
Focal infection. See infection
Food. See diet
Foramina: multiple; in root-canal treatment, clxvii
Fossil tooth; *Hesperopithecus haroldcookii* Osborn, 9

Fund, Endowment: Journal of Dental Research; report, (3)
Fusiform bacilli; alveolar abscesses, 1

GEORGIA State Dental Society; scientific proceedings, 241
Gregory's book: origin and evolution of human dentition; reviews, 275

HESPEROPITHECUS haroldcookii Osborn, 9

INFECTION: apical; bacteriology, 1
——: root-canal treatment, clxvii
Inheritance; and preventive dentistry, xl
International Association for Dental Research; scientific proceedings, ii (sectional contents)

JARVIE, William; in memoriam, (4)
Jenkins, Newell Sill; in memoriam, (4)
Journal of Dental Research: Endowment Fund; report (3)

MARSUPIAL enamel; structure, 27
Meltzer, Samuel J.; in memoriam, (4)
Memorial; Andrews, Jarvie, Jenkins, Meltzer, (4)
Metabolism: calcium; and endocrines, xlviii
——: in teeth, 117
Method; root-canal treatment, clxvii. See technique
Minnesota: University; extension courses in dentistry, 267
Mottled enamel; nature, 117
Mucin plaque; relation to caries, 27
Multiple foramina. See foramina

NASMYTH'S membrane; formation, 27
——; nature, 117
New York Academy of Dentistry; scientific proceedings, ii (sectional contents)
Nutrition. See diet, metabolism

ODONTOTOMY; prophylactic, 197
Ohio State Dental Society; scientific proceedings, 117
Oral hygiene. See prophylaxis
Oral prophylaxis. See prophylaxis
Orthodontia; preventive, cxix

PARTIAL prosthetic restorations; conservative, lxix
Periapical; pathology, clxvii
——; sequelae of dental caries, 197
Periodontal disease; evidence in skulls, 241
Pharyngitis; x-ray treatment, clxxxvii
Plaque; relation to caries, 27
Preventive dentistry; and endocrines, xxxix
——; influenced by education, cxxxix
——; orthodontia, cxix
——; transition from deciduous to permanent dentition, xcix
Proceedings: scientific; dental and stomatological societies, ii (sectional contents)
Prophylaxis: ante-natal, xlv
——; odontotomy, 197
——; treatment, 197
Prosthetic restorations: partial; conservative, lxix
Protein; in enamel, 117
Pulpless teeth; treatment, clxvii
Pulp: removal; cause of pathological periapical conditions, clxvii
——: conditions; diagnosis, clxvii

RADIOGRAPHY. See roentgenography
Research: Journal of Dental Research; report on Endowment Fund, (3)
Resistance: to caries; methods of increasing it, 197
Restorations: partial prosthetic; conservative, lxix
Retzius lines; and Schreger bands, 27
Reviews; books, 275
Roentgenography; in early dental disease, v
Root: canal; treatment, clxvii
——: exposure; and alveolar deficiency, 241

SCHREGER bands; and Retzius lines, 27
Scientific proceedings; dental and stomatological societies, ii (sectional contents)
Skulls; evidences of periodontal disease, 241
Societies: dental and stomatological; scientific proceedings, ii (sectional contents)
Spirochaetes; alveolar abscesses, 1
Stomatological and dental societies; scientific proceedings, ii (sectional contents)
Streptococci; alveolar abscesses, 1

TECHNIQUE; roentgenographic, v
Teeth (tooth): fossil; *Hesperopithecus haroldcookii* Osborn, 9
Tonsillitis; x-ray treatment, clxxxvii
Treatment; dental caries, 197
——; root canals, clxvii
——: tonsillitis and chronic pharyngitis (x-ray), clxxxvii

UNERUPTED teeth: fully formed; nature of enamel, 117
University of Minnesota; extension courses in dentistry, 267

VITAMINS; in formation of enamel, 27

X-RAY treatment; tonsillitis and chronic pharyngitis, clxxxvii
